Haoma Mining Shareholder Update PrimaryMarkets Trading Halt

Shareholders are advised that Haoma Mining shares have today been placed in a trading halt with PrimaryMarkets.

The trading halt will be lifted pending the release of an update detailing the results of recent test work conducted on Bamboo Creek Tailings at Haoma's Bamboo Creek Laboratory and Pilot Plant.

In the same release, Haoma will advise shareholders of Native Mineral Resources results from drilling at Haoma's Podosky's tenement near Ravenswood, North Queensland.

Yours sincerely
